## Principal's Message – Spring into Summer!

What a wonderful spring it has been at ADCS! The sunshine, laughter, and energy around our school have made this season one to remember. As we look ahead to summer, we're filled with pride and gratitude for everything our students, staff, and community have accomplished together.

### Cultural Space

We are especially excited to see our cultural space being enjoyed by students and families. Our Very Important Woman in Our Lives Celebration was a beautiful gathering that honoured the strong and inspiring women in our lives—it was full of love, laughter, and shared stories. What a gift it is to have this space thriving as a hub of culture and connection.

# ADCS

## Come-Try-It Day!

Our Come Try It event was also a huge hit! Thank you to all our community partners who helped make it such a success. We look forward to more collaborative programming that brings students, families, and community members together in meaningful ways.

## Land of Lobsters, Lighthouses, and Learning!

We're thrilled to share that thanks to successful fundraising, students in Grades 7-12 are heading to the Maritimes for an exciting year-end adventure! At home, we've also been making improvements—our new basketball nets are in and already getting lots of use and the kindness continues to spread across the school.

# ADCS

## Our Community, Our Canvas: A Celebration of Shared Creativity

We were also thrilled to see creativity on full display at the art show planned and organized by our talented art teacher. The show featured not only original student artwork, but also celebrated the creativity of local artists in our community. It was an inspiring event that showcased the beauty of expression and the power of art to connect us all.

## Being Kind To Mother Earth

Across all grades, students are showing tremendous commitment to caring for our environment. Whether it's our land-based learning classrooms cleaning up garbage in the community, students reusing and recycling in the classrooms, or our high school students proudly representing ADCS at the Generate Summit in Calgary and developing a plan to clean up the school, we are so proud of their leadership and care for the land.

# ADCS

## Summer Support

We are also excited to welcome back our summer students, who are already making a difference by helping in classrooms and leading fun games and activities during recess. Every afternoon continues to be filled with engaging cultural, creative, and land-based learning experiences that make our school so unique.

## Upcoming Events

As we move into the final stretch of the school year, be sure to watch for upcoming events:

- Track and Field Day: June 26th
- PATs
- ECS Grad: June 21st
- Awards night: June 25th
- And many more moments of learning and fun at ADCS.

Thank you for your continued support—let's finish this season strong and celebrate all we've accomplished together!

Warmly,  
Tammie Sarauer  
Principal at ADCS
